## Sign Automobile License Application, Barrett Asks

Springfield, Ill., Feb. 7—Secretary of State Edward J. Barrett said today that the State Automobile Department is receiving an average 100 unsigned applications daily, and urged future applicants to insure prompt delivery of their plates by signing their forms before mailing them to his office.

Motorists who fail to sign their license blanks delay delivery of tags to themselves, because of the difficulty in establishing the identity of the applicant, Barrett said.

The automobile department also is receiving many applications made on last year's license forms. The 1944 blanks are not acceptable to the automobile department, he said.

## County Board Is Continuing Plans for New Building

### Votes to Have Architects Make Preliminary Studies for Project

Preliminary plans for the building of a new Lake county jail and courts building are to be drafted, as the result of action taken by the Lake County Board of supervisors at a meeting Tuesday.

The supervisors adopted a resolution empowering the board's building committee to retain the architectural firm of Ekstrand and Schad to prepare preliminary plans at a cost not to exceed \$2,500.

The resolution authorized an appropriation and directed the Lake county clerk to pay the architects their fee "upon the completing and acceptance of said plans by the board."

The building committee, of which William A. Rosing, Antioch, is a member, has been urging early completion of plans in order that actual construction may be started without delay as soon as labor and materials are available. The committee is chairmaned by William Witten of Highland Park, with Michael Ruesch of Zion as co-chairman. Other members are John Koski, North Chicago, and Carl A. Staben, Waukegan.

The site of the present jail, south of the main county building, was decided upon by the supervisors last month as the location for the new building.

The board had decided earlier, as the result of an inspection and survey, that the present building is inadequate and should be replaced. Plans for including space for courtrooms and offices in the proposed new structure, making it a criminal courts building as well as a jail, were also favored.

In tribute to Sidney Herbert Reeves, 86, who until his retirement three years ago was the dean of Antioch businessmen, mercantile establishments and offices throughout the village were closed Monday afternoon while final services for him were being held in the Strang Funeral home.

"Daddy" Reeves, as he was affectionately known, passed away Saturday morning at the Jacob Drom residence, 639 North Main street, after an illness of 10 days.

He was for more than 30 years a resident of Antioch, and was for 20 years owner of the drug store which still carries his name, and which is now operated as a Walgreen agency by Mr. and Mrs. George Borovicka.

### Bought Richards' Store

He was born at Osage, Ia., July 18, 1858, and spent his early life there, later moving to St. Paul, Minn. In 1909 he moved to Chicago, and ten years later came to Antioch as relief pharmacist for what was then Richards' drug store. Becoming attached to the community, he purchased the business and built an excellent trade and a wide circle of friends.

Among the many kind acts which endeared him to the community was his long-established custom of giving an ice cream cone to each of the 75 or 100 children of Antioch Grade school's first three grades every Monday afternoon. This custom has been continued by the present proprietors of the store.

On Easter Sunday in 1940, a delegation acting on behalf of the entire community presented to him a framed etching of his portrait, done by a well known Chicago artist.

His wife passed away in 1928 and a son, Knox, also preceded him in death.

Surviving are a son, Herbert, who is a resident of Pasadena, Calif., and four grandchildren.

The Rev. W. C. Henslee, pastor of the Antioch Methodist church, officiated at the services. Masonic rites were presided over by Frank B. Huber, past master of Sequoit lodge, A. F. and A. M.

### Maritime Service Wins Praises

CHICAGO (SPECIAL)—Calling attention to the training program of the U. S. MARITIME SERVICE, which has largely been responsible for the success of our Merchant Marine in this war, the 6th Regional USMS Public Relations Officer has released statements made by Admirals of the Fleet, King and Nimitz and Generals of the Army, Marshall, Eisenhower and MacArthur.

At the start of the war, there were approximately 50,000 officers and seamen employed in our Merchant Marine. Since the beginning of the war, the U. S. MARITIME SERVICE, a federal uniformed organization, has trained more than 140,000 officers and seamen for our merchant fleet. This training program combined with our unprecedented ship building program, has resulted in our merchant fleet doing a truly outstanding job in this war.

Statements by Admirals of the Fleet King and Nimitz and Generals of the Army Marshall, Eisenhower and MacArthur are as follows:

"Because the Navy shares life and death, attack and victory, with the men of the United States Merchant Marine, we are fully aware of their contribution to the victory which must come."

Admiral of the Fleet Ernest J. King, Commander-in-Chief of the Fleet and Chief of Naval Operations.

"Every man in this Allied Command is quick to express his admiration for the loyalty, courage and fortitude of the officers and men of the Merchant Marine. We count upon their efficiency and their utter devotion to duty as we do our own; they have never failed us yet and in all the struggles yet to come we know that they will never be deterred by any danger, hardship, or privation. When final victory is ours there is no or-

ganization that will share its credit more deservedly than the Merchant Marine."

General of the Army Dwight D. Eisenhower  
Supreme Commander of Allied Forces  
European Theatre

"The Merchant Marine has repeatedly proved its right to be considered as an integral part of our fighting team."

Admiral of the Fleet Chester W. Nimitz  
Commander-in-Chief, Pacific

"The men and women who build the ships, the men who sail them, are making it possible to transport fighting men and supplies wherever they are needed to face the enemy. The Army is deeply indebted to these men and women for their unceasing effort to do everything in their power to hasten the day of victory."

General of the Army George C. Marshall  
Army Chief of Staff

"They have brought us our lifeblood and they have paid for it with some of their own. I saw them bombed off Corregidor and more recently I have seen the same thing happen to them in ports in this area. When their ships were not blown up from under them by bombs and torpedoes, they have delivered their cargoes to us who needed them so badly."

General of the Army Douglas MacArthur

### We are Luckier Than We Know

"I guess a person has a lot to give thanks for if they're just alive—and we in this country just don't know how lucky we are to live here!"—so a returned soldier who had served in the African campaign observed the other day.

"I never realized how well off most people are in the United States until I saw how some other people live," he continued. "Just coming back to this country makes me want to give thanks every day for what we have here."

—Perhaps the above may serve as an answer to those who are full of gloomy prophecies about the post war era.

That era may very well be one of unrest, of upset traditions and unsettled spirit—but with many of the young men coming back from foreign service with an enhanced appreciation for their homeland, and a firmer determination that it shall remain a great and good country, the future does not look too dark.

## Lights of New York

by L. L. STEVENSON

By the Pound: Reports Harry Gilbert: "When I arrived in Wichita recently, at the railroad station, the driver of a taxicab, a very attractive young woman, assigned me to the farthest corner of the rear seat. Hardly was I inside when the cab tilted violently to the right, the reason being that Ed ('Strangler') Lewis, the wrestling champion, had put his foot on the running board. Without any difficulty, Lewis hoisted his 300 or more pounds of massiveness and inserted himself beside me, the two of us filling the seat completely. Then the driver looked inside to see if she couldn't squeeze in another passenger and thus make her trip more profitable. Acknowledging the inevitable, she closed the door and the ancient vehicle creaked and groaned its way uptown. When we reached our hotel, Lewis gave the girl \$1 which was exactly double the fare."

Around the Town: Miriam Hopkins, who started out to be a ballerina until a broken ankle forced her into the straight dramatic path, looking wistfully at the marquee posters of the Ballet International. . . . Melody Thompson, the cigarette heiress who became an MGM starlet, browsing around in one of those red-fronted marts—a \$3,000,000 baby in a 5 and 10 cent store. . . . Gene Buck making slow progress through Times square because so many friends stop him for a chat. . . . Bob Burns, the Arkansas traveler, traveling Broadway and walking as if pavements made his feet hurt. . . . Mary Martin, looking ceter than ever in a trim gray outfit, peering into a toy store undoubtedly with her thoughts on her little daughter. . . . Maggi McNellis, who always seems to be in a hurry these days, hurrying to keep a luncheon appointment at Gilmore's. . . .

Cuff Notes: Benny Malchioli, one of the most efficient waiters in the Waldorf-Astoria's Wedgewood room, is such an exact double for the Voice that his friends call him Benny Sinatra. . . . Two of our favorite young folks, Sylvia Diamond, account executive for David O. Alber Associates, and Peter Manasse, an importer, whose wedding was set for next month, surprised their friends by slipping away recently and having a quiet ceremony performed. A lot of happiness for them both. . . . Pleasant news that Lucille and Harry Ryan of Detroit are the parents of a pretty little daughter whose name is Sheila Diane Ryan. . . . The first thing Leopold Stokowski told Leo Reisman when they met after Reisman's recent return to New York, was that he had lost Reisman's recording of "St. Louis Blues" and would like another. . . . that recording was made more than 15 years ago.

Faces & Places: Rotund balladeer Burl Ives comparing abdominal bay windows with rotund Toots Shor at the latter's food emporium and remarking, "After all, what are fat people—thin people with flesh?" . . . Dale Belmont, the "girl with the blue velvet voice," looking at a Fifth avenue window display of blue velvet. . . . Homer Croy, who needn't worry about putting on weight, strolling Park avenue . . . and in the next block, Fulton Oursler, who isn't thin, getting a bit of sunshine. . . . Margaret Carson, entirely too attractive to be a press agent, going into the 39th street entrance of the Metropolitan. . . . She's the Met's official tub thumper this season. . . . An Ohio girl, she carries a buckeye which came from near Toledo, her home town.

This & That: Les Martin, Buddy Powers and George Mills, known to theater-goers as "The Three Stowaways," have been released from the army after serving Uncle Sam three years. . . . They will play the lead in the new revue, "Ex-G.I.s on Parade," which Barney Ross will head. . . . All members of the cast will be men who have served in World War II. . . . Harry Joachim, radio's youngest gag writer, sends this message to women who work in defense plants: "Never carry your welding torches into a crowded bus or street car—you may deprive some man of his seat." . . . Phil Baker notes that many of our desires are often nipped in the bud. . . . While Xavier Cugat avers that his osteopath kneads patients.

Addenda: Says Brother Ned, writing about their dream-come-true which he and Rusty have named Man-Son Farm: "When you come to visit us next summer, we will get up a little early so that you will eat melons with the dew still on them and the corn will be just 30 seconds from the stalk to the kettle." Who was it who said "Time Flies"? Bell Syndicate.—WNU Features.

## A good report card...

In Northern Illinois... in business and home... in war plant and on the farm... electricity lightens the way. It powers the machines that produce the goods we need... it brings entertainment... it makes the work-day easier... life more comfortable. Electricity is doing the biggest and most important job in its history.

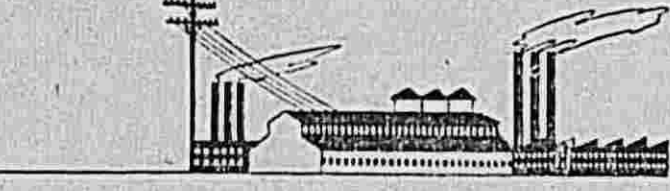

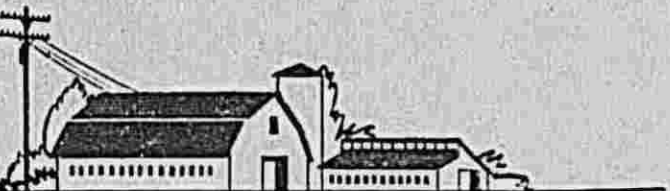

When America entered the war, Northern Illinois answered the call... and found that it had the power to do the job.

Power went to work in hundreds of war plants to produce fighting tools for fighting men.

Farmers found electricity ready as the ideal hired man to help in the tremendous task of feeding an America at war. A hired man with no time off... no days off... and at the lowest wages in history.

In the home—city or country—electricity proved ever the faithful servant... helping in a hundred ways... working round the clock to give war workers extra time for added activities.

Electric power is proud to report that its dependable, low-cost services are available to 86% of the farms and all of the homes and war plants in the Northern Illinois area.

### WORLD DAY OF PRAYER

Friday, February 16, is the annual World Day of Prayer. On that day all people everywhere, of every race and creed, are called to prayer. This year the need of such concerted appeal to God seems more urgent than ever. With the world engulfed in war and all Christendom in a state of moral lapse, one should pray, not only for the redemption of the world but also in humble confession and true repentance; prayers should ascend to God for personal pardon and spiritual power to become a definite force in producing a new Christian citizenship.

The Methodists of this community have chosen the hour of 2:00 P. M. as a time to stop and lift the heart to God for the renewal of His spirit and power in human hearts. We invite all who believe in the power of prayer to join us.

It should be remembered, however, that the Bible says "Men ought always to pray and not to faint." To this end we invite you to worship with us at the Methodist Church at 11:00 A. M. next Sunday and every Sunday. Remember: Friday at 2:00 P. M. and Sunday at 11:00 A. M. Warren C. Henslee, Minister.

### Soil Improvement to be Topic of Meeting Feb. 20

"What fertilizers shall I use?" "What is the best way to build up nitrogen in my soil?" "How can I make my pastures better?"

These and many other questions on soils and soil improvement will be answered during a meeting arranged by Ray T. Nicholas, farm adviser, for Tuesday afternoon, Feb. 20, in the Farm Bureau office, Grayslake. The meeting will start at 1 p. m.

A. U. Thor of the Illinois university college of agriculture will be present at the gathering, which is to be open to all farmers who are interested.

### Thordarson Company to Move into New Quarters

The Thordarson Electric company is planning to move its Antioch branch plant from the former Danish hall on Ida avenue to its new quarters in the Ackerman building this weekend.

Crews of workmen have been busy during the past week putting in new floors, painting and repairing the company's new "home" at rear of the Snow White Ice Cream store and Antioch Recreation parlors for the move.

The Antioch branch has been located on Ida avenue for several months. Its new quarters were formerly occupied by the Sheahan Implement company, which now has its own building on Depot street.

Homer La Plant has had charge of the brick work done in the new quarters; the Carey Electric and Plumbing company of the plumbing; Wilton Electric, the wiring and other electrical work; Burgess Battery company, of Freeport, of the painting; and a contractor from Algonquin, Ill., of the laying of a composition floor.

Moving will take place Sunday and Monday, and the plant will re-open Tuesday.

George Garland of Antioch is foreman at the local plant, with Tom Moir, formerly of Elgin and now residing near Grayslake, as manager.

### Salem Meeting Will Feature Farm Work

"Whether or not the present farm labor shortage continues," says Joe Horton, Sinclair agent at Antioch, "the problem is becoming all the more difficult for the farmer. He is asked to do a bigger job than ever with his present inadequate set-up."

"That means finding ways and means to cut job time and get more work done. Sinclair has been studying the farm problem. With the help of government and college agricultural experts, also practical farmers, methods have been devised looking toward time and labor saving for the farmer. "These methods," said Horton, "will be demonstrated at a 'Farm Work Simplification' meeting which we are holding in the Salem Opera house, Salem, Wis., Monday, February

19. A new motion picture will be presented showing how farmers have applied simplification to farming operations with considerable savings in time and labor.

"Study and analysis of the details of farm jobs by farmers, themselves, have shown where operations could be combined or rearranged to save time and work. In one instance a feeding job customarily done in 119 operations was reduced to 81 operations, obviously saving much time and work."

"We are confident," added Horton, "that farm work simplification, as demonstrated at the meeting, will be both interesting and helpful to farmers."

Horton stated that two other motion pictures, one a special full color musical, and other entertaining features would be part of the meeting.

## *No job is as sure as your Bond!*

### Think it over.

Think it over especially when you get the urge to spend now...when you get the idea that maybe it wouldn't hurt to cash some of those War Bonds.

Because if you let those Bonds go now, or before they reach maturity, you're letting go one sure thing in your future.

United States War Bonds are the best investment in the world. No matter what happens in postwar America, you can always be sure to collect those four dollars for every three you've loaned Uncle Sam, when your Bonds mature.

No job—no income—no other opportunity offers you such certain security, such a chance to protect your own future, or such a chance some day to have some of the things you've always wanted.

Instead of cashing in your Bonds next time you're tempted, buy another just to be on the safe side. Your country needs the money—and you need War Bonds!
